

WORLD PACIFIC LED THE MARKET

Rumor Is That Harriman Has Put Up Stock to Sell Bonds.

READING TAKES A JUMP

Forecast of the Weekly Currency Report Promises Large Addition to Bank Balance.

NEW YORK, May 8.—Explanation of the further rise in prices of stocks today was directed to the play of general causes, rather than to any immediate new developments of anything specially affecting the individual stocks which were strong.

The Harriman Pacific and Reading were brought forward once more into the front rank for the moment, and their activity and strength had the usual power of the effect on speculative sentiment on the exchange.

The principal factor regarding the Union Pacific is the well-known imminence of a bond issue of \$25,000,000 to \$50,000,000. Many rumors circulated to-day of the amount of these bonds to be offered and the price to be realized.

There was a momentary halt in the rise upon the appearance of the government crop report, which was less favorable than expected.

NEW YORK, May 8.—Money on call easier; 1-2-1/2 per cent; ruling rate, 1-3/4; closing bid, 1-1/2; offered at 1-3/4 per cent.
